October Workshops

Please join us this month as we kick off the fall with two workshops. We will be regularly featuring two workshops per month: an artistic workshop and a technical workshop.

Artistic Workshop:

Glass and Ceramic Mosaics

Saturday, October 2
10 am - 2 pm

Presented by Christina Yaconelli
of Yellow Cottage Mosaics

Middlebrook Gardens
76 Race Street, San Jose

Class and materials fee: \$25

Two-day Technical Workshop:
**Designing, Building, and Managing Native
Gardens**

Saturday, October 23, 4 - 6:30 pm
Sunday, October 24, 10-1 pm

Presented by Alrie Middlebrook
Middlebrook Gardens
76 Race Street, San Jose

In this design class, you will learn how to start visualizing your native garden, how to incorporate native plants, find out which native plants are right for your yard, and get many design ideas for your project. Alrie Middlebrook has more than 30 years experience as a professional landscaper and author. The Saturday portion of the class is an indoor lecture.

We meet again on Sunday to tour private, native gardens, each features different styles, different microclimates, and different plants. In these gardens in the San Jose area, you see first-hand how each garden reflects the natural environment around it, and learn from the designer how each garden was constructed. Maps will be provided.

Classes and/or Garden Tour: \$40 for CNGF members, \$65 for non-members. RSVP at info@cngf.org with Garden Class
